

**Join us for a day of Immunology at the Discovery Institute  
May 17, 2024**

## **Keynote Speakers and Symposium Agenda**

### **Program**

8:30-9 AM poster and table set-up

9-10 AM coffee hour and poster session

10-11 AM keynote 1

11-11:45 AM 3 trainee talks selected from abstract submissions

11:45-1 PM lunch

1-2 PM keynote 2

1-2:45 PM 3 trainee talks selected from abstract submissions

3-4 PM keynote 3

4-4:15 PM closing remarks, poster awards

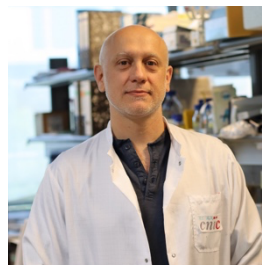

4-5 PM social hour

**Marcela Maus, MD, PhD**

*Harvard Medical School & Mass General Cancer Center*

The Maus lab is designing next-gen genetically modified T cells for tumor immunotherapy with improved efficacy and safety

**Andres Hidalgo, PhD**

*Yale School of Medicine*

The Hidalgo lab studies the functions, organization and development of innate immune cells at homeostasis and during regeneration and disease

**Sue Kaech, PhD**

*Salk Institute*

The Kaech lab is studying how long-lived T cell memory is established through both genetic and metabolic pathways and how this changes during infection of in the tumor microenvironment
